To the Director of the Bureau of Entomology and Plant Quarantine  
United States Department of Agriculture  
Washington, D. C.  
The following is a list of the members of the Bureau of Entomology and Plant Quarantine  
as of November 1, 1948.

DIRECTORY

of the

BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

November 1948.

UNITED STATES DEPARTMENT OF AGRICULTURE  
Agricultural Research Administration  
Bureau of Entomology and Plant Quarantine

This directory is issued for the information of the personnel of the Bureau of Entomology and Plant Quarantine. It contains the names and addresses of the administrative leaders. All field stations are listed alphabetically by States, together with the address, name of the individual in charge, and brief statement of the work conducted. Although much of the work is carried on jointly or in close cooperation with various State and Federal agencies, indication of such cooperation has been omitted for the sake of brevity. A personnel index and a division index will be found on the last pages of the directory.

UNITED STATES DEPARTMENT OF AGRICULTURE  
Agricultural Research Administration

BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

OFFICE OF THE CHIEF

Associate Chief  
Assistant Chief I/C Administration  
Assistant Chief I/C Control  
Assistant Chief I/C Regulatory  
Assistant Chief I/C Research  
Assistant to the Chief of Bureau

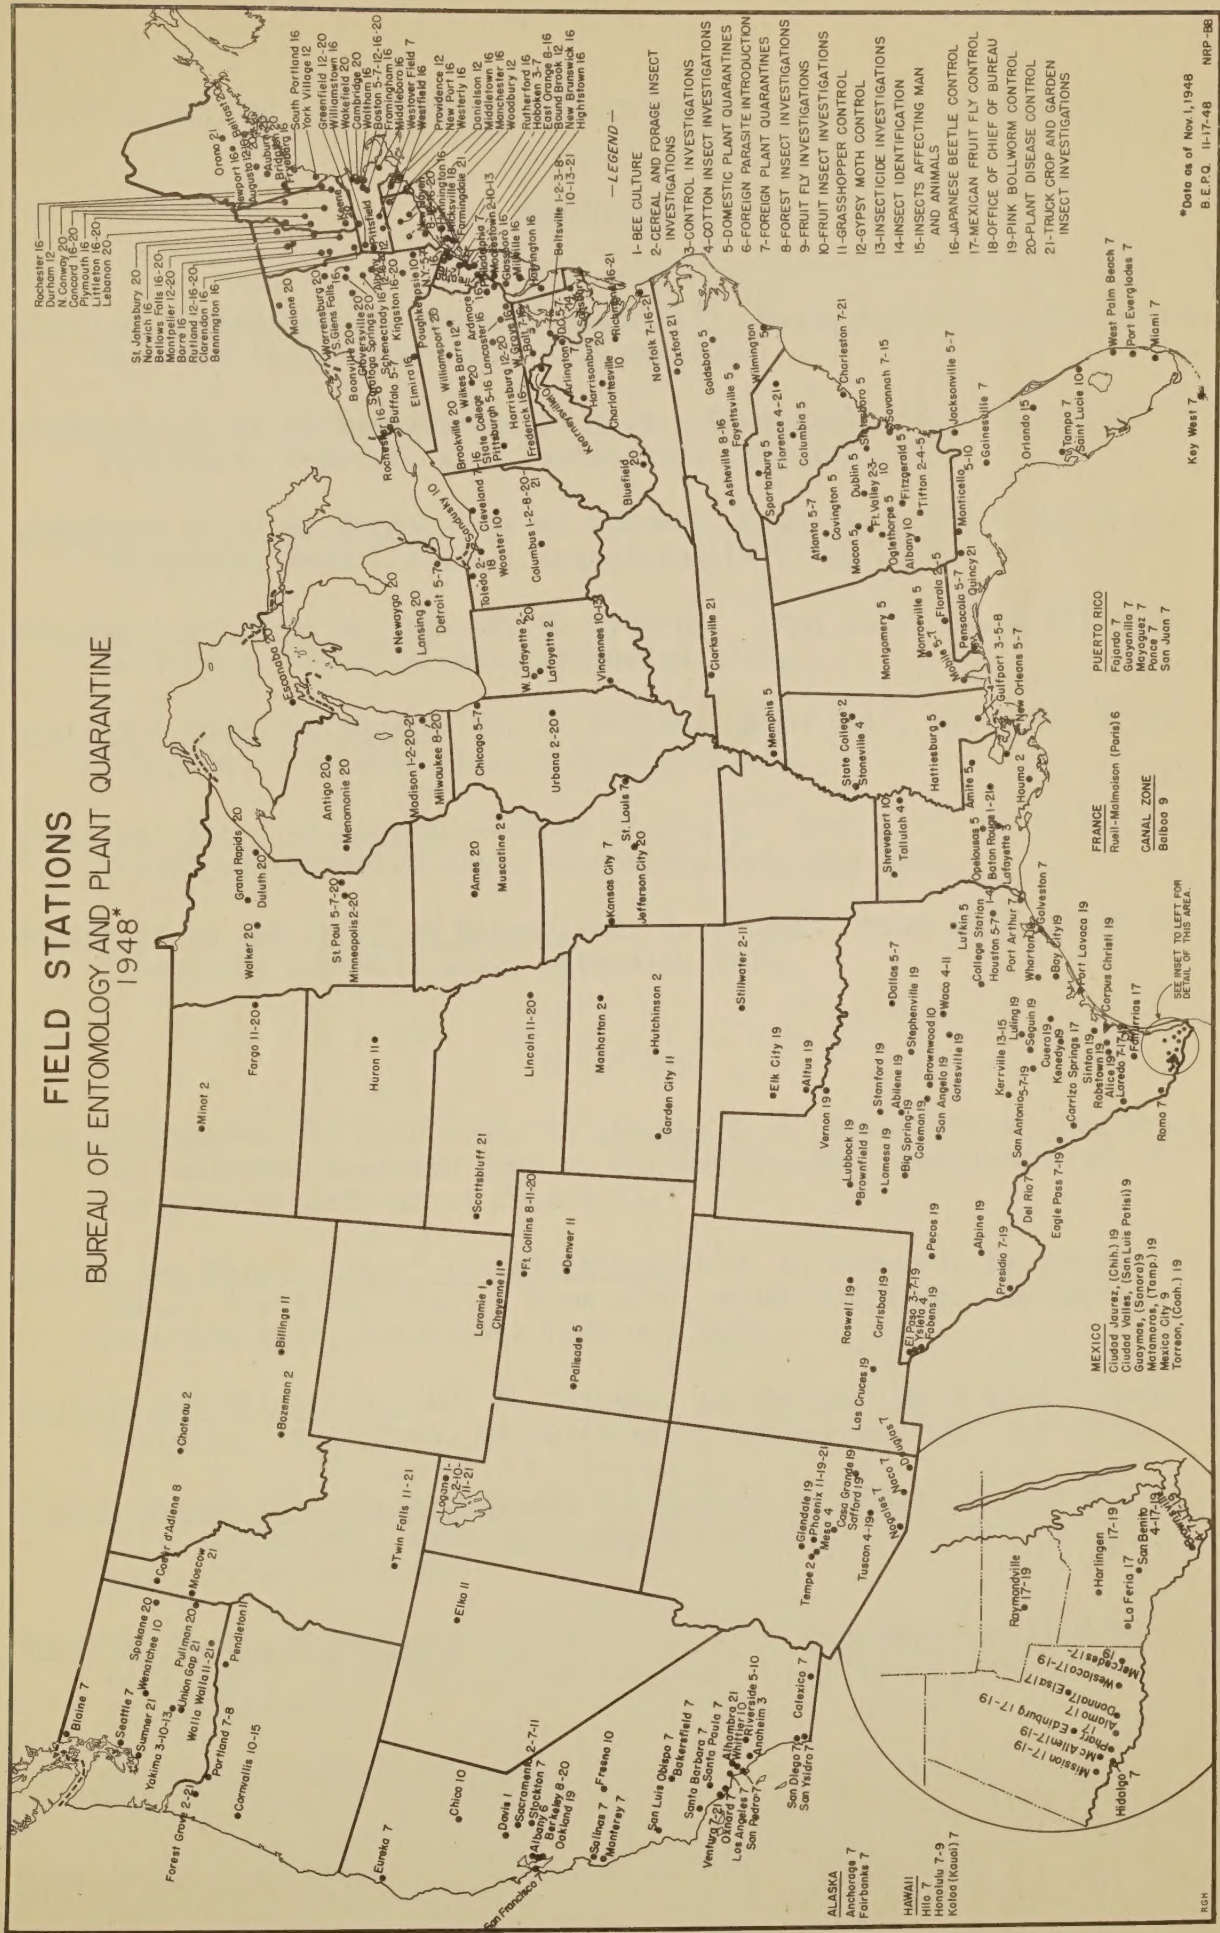

DIVISIONS

<p><b>BEE CULTURE</b> Investigations on bees and bee products and the use of bees in the pollination of economic plants.</p>	<p><b>DOMESTIC PLANT QUARANTINES</b> Surveys for and control and prevention of spread of white-fringed beetles, phony peach, peach mosaic, sweetpotato weevil, and other emergency outbreaks of insect pests and plant diseases. Enforcement of domestic plant quarantines by inspection in transit of regulated materials in co-ordination with State officials, postal authorities, and common carriers. Enforcement of District of Columbia plant regulations.</p>	<p><b>FOREIGN PLANT QUARANTINES</b> Enforcing Federal plant quarantine prohibiting or restricting importation of foreign plants and products or movement of plants and plant products from Hawaii and Puerto Rico to the mainland, enforcing Insect Pest Act of 1905 and so-called "Export Certification Act."</p>	<p><b>GRASSHOPPER CONTROL</b> Surveys and control operations for the protection of crops from the attack of grasshoppers, Mormon crickets, armyworms, and chinoh bugs in approximately 26 States, in cooperation with State agricultural and pest control officials, Extension Service, and other agencies.</p>	<p><b>INSECT PEST SURVEY AND INFORMATION</b> Maintain and record data on insect pest conditions, edit scientific and technical manuscripts and prepare them for publication. Prepare radio releases and feature articles, direct drafting and illustrating work, direct distribution of technical materials and maintain Bureau mailing lists.</p>	<p><b>MEXICAN FRUIT FLY CONTROL</b> Operations for the control and prevention of spread of the Mexican fruit fly, including the enforcement of Federal quarantines.</p>
<p><b>CEREAL AND FORAGE INSECT INVESTIGATIONS</b> Investigations of the insects affecting cereal and forage crops, including sugarcane, insect pests of stored grains and milled cereals, European corn borer, grasshoppers, Mormon crickets, chinoh bugs, white-fringed beetles, corn earworm, and southwestern corn borer. These investigations are usually throughout the country, but are especially important on small grain and forage-producing States.</p>	<p><b>BUSINESS ADMINISTRATION</b> Maintain the business and financial operations of the Bureau, including budgeting, accounting, auditing, purchasing, claims and leases, contracts, and mail and files work.</p>	<p><b>FOREST INSECT INVESTIGATIONS</b> Investigations on insects injurious to forest and shade trees and forest products, devising effective economic methods for their control, and technical advice and assistance to forest land-managing agencies in planning and directing work to control infestations of these insects.</p>	<p><b>GYPSY MOTH CONTROL</b> Operations for the control and prevention of the spread of gypsy and brown-tail moths in the New England States and in New York, and the eradication of the gypsy moth in New Jersey and Pennsylvania.</p>	<p><b>INSECTS AFFECTING MAN AND ANIMALS</b> Investigations on insect pests injurious to man and domestic animals, also those which injure household supplies, fabrics, drugs, and other materials, and the development of means for their destruction or control. Investigations on insect pests of farm and range animals.</p>	<p><b>PINE BOLLWORM CONTROL</b> Operations for the control and prevention of spread of pink bollworm and thurberia weevil, including enforcement of Federal quarantine, which involves execution of inspection, regulatory, control, and cooperative measures.</p>
<p><b>CONTROL INVESTIGATIONS</b> Investigations on physiology and toxicology of insects, tests to determine toxicity of chemical compounds to insects, development of new methods of applying insecticides, development of treatments for plants, plant products and soil regulated by quarantine, and investigations of the effects of cottony scale for pest control upon beneficial insects.</p>	<p><b>FRUIT INSECT INVESTIGATIONS</b> Research to develop effective and economical control measures for insects affecting fruits, nuts, grapes, such as green fruitworm and blueberries; research in connection with the control of the Japanese beetle; operation of a program for the eradication of Hail scale.</p>	<p><b>INSECTICIDE INVESTIGATIONS</b> Investigations and development of methods of manufacturing better insecticides, attractants, repellents, and materials used with them, including chemical and physical problems relating to their composition, application, and manufacture.</p>	<p><b>JAPANESE BEETLE CONTROL</b> Operations for the control and prevention of spread of the Japanese beetle and the Dutch elm disease, including enforcement of Federal quarantines on Japanese beetle and gypsy and brown-tail moths.</p>	<p><b>PLANT DISEASE CONTROL</b> Operations for the control and prevention of the spread of white pine blister rust and black stem rust, including the eradication of current and possible sources for the conifer blight for the control of white pine blister rust and the eradication of barberry bushes for the control of black stem rust on wheat and other small grains.</p>	<p><b>PERSONNEL</b> Maintain the Bureau's personnel policy, including appointments, classifications, leave, retirement, etc.</p>
<p><b>COTTON INSECT INVESTIGATIONS</b> Investigations for the development of control measures for insects affecting cotton, including bollworm, boll weevil, pink bollworm, aphids, cotton fleahopper, and other insects on cotton; basic research on cotton insects. Cotton insect surveys.</p>	<p><b>THICK GRASS AND GRASSHOPPER INSECT INVESTIGATIONS</b> Investigations on the habits and development of control measures for insects affecting vegetables, garden flowers, and greenhouse crops, bulbs, mushrooms, sugar beets, and tobacco.</p>				

# FIELD STATIONS BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE 1948\*

DIRECTORY OF THE BUREAU OF ENTOMOLOGY AND PLANT QUARANTINE

ORGANIZATION

Chief of Bureau.--P. N. Annand. Room 3113, South Building. Telephone, Republic 4142, extensions 2745 and 2746.

Associate Chief of Bureau.--A. S. Hoyt. Room 4113, South Building. Telephone, Republic 4142, extensions 4491 and 2983.

Assistant Chief of Bureau.--S. A. Rohwer. Room 3117, South Building. Telephone, Republic 4142, extensions 2977 and 2986.

Assistant Chief of Bureau.--F. C. Bishopp. Room 4121, South Building. Telephone, Republic 4142, extension 4328.

Assistant Chief of Bureau.--W. L. Popham. Room 4113, South Building. Telephone, Republic 4142, extension 2464.

Assistant Chief of Bureau.--Edmund Stephens. Room 4123, South Building. Telephone, Republic 4142, extensions 6161 and 6162.

Assistant to the Chief of Bureau.--H. L. Haller. Room 6129, South Building. Telephone, Republic 4142, extension 4950.

DIVISIONS

Bee Culture.--J. I. Hambleton, in charge; W. J. Nolan, first assistant. Agricultural Research Center, Beltsville, Md. Telephone, 82 or Tower 6430, extensions 19 and 22.

Cereal and Forage Insect Investigations.--C. M. Packard, in charge; W. A. Baker, first assistant. Room 4150, South Building. Telephone, Republic 4142, extensions 2989 and 2990.

Control Investigations.--C. P. Clausen, in charge. Room 2153, South Building. Telephone, Republic 4142, extensions 4793 and 4794.

Cotton Insect Investigations.--R. W. Harned, in charge; T. P. Cassidy, first assistant. Room 4133, South Building. Telephone, Republic 4142, extension 2596.

Domestic Plant Quarantines.--B. M. Gaddis, in charge; R. G. Richmond, first assistant. Room 2147, South Building. Telephone, Republic 4142, extension 4587.

Finance and Business Administration.--E. Connor, in charge. Room 2125, South Building. Telephone, Republic 4142, extension 2570.

Foreign Parasite Introduction.--C. P. Clausen, in charge. Room 2153, South Building. Telephone, Republic 4142, extensions 4793 and 4794.

Foreign Plant Quarantines.--E. R. Sasscer, in charge; H. S. Dean, first assistant. Room 3114, South Building. Telephone, Republic 4142, extension 4493.

Forest Insect Investigations.--F. C. Craighead, in charge; L. W. Orr and D. E. Parker, assistants. Agricultural Research Center, Beltsville, Md. Telephone, 82 or Tower 6430, extensions 111 and 112.

Fruit Fly Investigations.--A. C. Baker, in charge; W. E. Stone, first assistant. Apartado Num. 3, Colonia Anahuac, D. F., Mexico. Telephones, 16-32-77 and 38-03-97.

Fruit Insect Investigations.--B. A. Porter, in charge; H. Baker, first assistant. Room 4135, South Building. Telephone, Republic 4142, extensions 2987 and 2988.

Grasshopper Control.--Claude Wakeland, in charge; J. R. Dutton, first assistant. 131 Speer Boulevard, Denver 3, Colo. Telephone, Tabor 2329.

Gypsy Moth Control.--J. M. Corliss, in charge; S. S. Crossman, first assistant. 20 Sanderson Street, Greenfield, Mass. Telephone, 3648.

Insecticide Investigations.--R. C. Roark, in charge; Mrs. Ruth L. Busbey, first assistant. Agricultural Research Center, Beltsville, Md. Telephone, 82 or Tower 6430, extension 148.

Insect Identification.--C. F. W. Muesebeck, in charge; P. W. Oman, first assistant. Room 3130, South Building. Telephone, Republic 4142, extension 4381.

Insect Pest Survey and Information.--G. J. Haeussler, in charge; D. G. Hall, first assistant. Room 4114, South Building. Telephone, Republic 4142, extensions 2991 and 2992. M. J. Edmonds, in charge, Editorial Section. Room 4128, South Building. Telephone, Republic 4142, extensions 2690 and 4302.

Insects Affecting Man and Animals.--E. F. Knipling, in charge; H. H. Stage, first assistant. Room 4140, South Building. Telephone, Republic 4142, extensions 4383 and 4384.

Japanese Beetle Control.--E. G. Brewer, in charge; Wm. Middleton, first assistant. 503 Main Street, East Orange, N. J. Telephones, Orange 3-3464 and 3-3465.

Mexican Fruit Fly Control.--P. A. Hoidale, in charge; N. O. Berry, first assistant. Room 212, McClendon Building, Harlingen, Tex. Telephones, 591 and 592.

Personnel.--W. F. Leffler, in charge. Room 4143, South Building. Telephone, Republic 4142, extension 3217.

Pink Bollworm Control.--L. F. Curl, in charge; R. W. White, first assistant. Room 571, Federal Building, San Antonio 6, Tex. Telephone, Fannin 7141, extension 275.

Plant Disease Control.--J.F. Martin, in charge; L.K. Wright, first assistant. Room 3149, South Building. Telephone, Republic 4142, extensions 4368 and 4369.

Truck Crop and Garden Insect Investigations.--W. H. White, in charge; D. J. Caffrey, first assistant. Room 3144, South Building. Telephone, Republic 4142, extension 4791.

## LABORATORIES, OFFICES, AND FIELD HEADQUARTERS

In the following list the terms "office" and "laboratory" refer to units which report directly to the head of the division. The terms "suboffice" and "sublaboratory" refer to units that report through an office or laboratory. The terms "district office" and "district laboratory" refer to units that report through a suboffice or sublaboratory.

### ALABAMA

#### Floralia

Cereal and Forage Insect Investigations (laboratory).--704-708 West Fifth Avenue. P. O. Box 132. Telephone, 64. H. C. Young, in charge.  
Investigations of white-fringed beetles.

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--Hughes Building. P. O. Box 187. Telephone, 64. W. O. Owen, in charge.  
Control, suppression, and prevention of spread of white-fringed beetles.

#### Mobile

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--Room 111, Federal Building. P. O. Box 670. Telephone, 2-3641, extension 214.  
D. E. Read, in charge.  
Sweetpotato weevil control and eradication.

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--Room 111, Federal Building. P. O. Box 670. Telephone, 2-3641, extension 214.  
K. S. Rohwer, in charge. Garage: 161-165 West Water Street.  
Control, suppression, and prevention of spread of white-fringed beetles.

Foreign Plant Quarantines (office).--Room 209, U. S. Courthouse and Customhouse, Mobile 8. P. O. Box 1413. Telephone, 2-3641, extension 223.  
J. R. Wood, in charge.  
Enforcement of foreign plant quarantines.

#### Monroeville

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--6 Lindsey Building. P. O. Box 409. C. L. Stanford, in charge.  
Control, suppression, and prevention of spread of white-fringed beetles.

#### Montgomery

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--Rooms 304-305 Old Post Office Building. P. O. Box 1886. Telephone, 3-7861.  
Madimore Brunson, in charge.  
Control, suppression, and prevention of spread of white-fringed beetles.

ALASKA

Anchorage

Foreign Plant Quarantines (office).--P. O. Box 312. C. M. Baker, in charge.  
Enforcement of foreign plant quarantines.

Fairbanks

Foreign Plant Quarantines (office).--Room 403, Federal Building. P. O. Box 50. C. E. Prince, in charge.  
Enforcement of foreign plant quarantines.

ARIZONA

Casa Grande

Pink Bollworm Control (suboffice of Phoenix, Ariz., office).--P. O. Box 845. E. J. O'Donnell, in charge.  
Quarantine operations against the pink bollworm and Thurberia weevil.

Douglas

Foreign Plant Quarantines (office).--Room 207, U. S. Inspection Station. P. O. Box 943. Telephone, 64. B. R. Anderson, in charge.  
Enforcement of foreign plant quarantines.

Glendale

Pink Bollworm Control (suboffice of Phoenix, Ariz., office).--(Temporarily vacant), in charge.  
Quarantine operations against the pink bollworm and Thurberia weevil.

Mesa

Cotton Insect Investigations (sublaboratory of Tucson, Ariz., laboratory).--Post Office Building. P. O. Box 534. Telephone, 387. L. W. Sheets, in charge.

Investigations of hemipterous and other insects of cotton, and control with insecticides. Cotton insect surveys in Arizona, California, and New Mexico.

Naco

Foreign Plant Quarantines (office).--Room 107, U. S. Border Station. P. O. Box 94. Telephone, Bigbee 845-R-5. W. F. Maner, in charge.  
Enforcement of foreign plant quarantines.

Nogales

Foreign Plant Quarantines (office).---Room 128, Federal Inspection Station.  
P. O. Box 688. Telephone, 276. G. F. Callaghan, in charge.  
Enforcement of foreign plant quarantines.

Phoenix

Grasshopper Control (suboffice of Denver, Colo., office).---Room 628,  
Security Building. Telephone, 4-4062. A. E. Frazier, in charge.  
State headquarters for grasshopper control activities.

Pink Bollworm Control (office).---Room 628, Security Building. Telephone,  
4-4062. D. M. McEachern, in charge.  
Quarantine operations against the pink bollworm and *Thurberia weevil*.

Truck Crop and Garden Insect Investigations (laboratory).---1743 West Walnut  
Street. Telephone, 3-8886. O. A. Hills, in charge.  
Investigations of insects affecting vegetable seed crops.

Safford

Pink Bollworm Control (suboffice of Phoenix, Ariz., office).---Room 309,  
U. S. Post Office Building. P. O. Box 246. Telephone, 132. G. F.  
McLain, in charge.  
Quarantine operations against the pink bollworm and *Thurberia weevil*.

Tempe

Cereal and Forage Insect Investigations (laboratory).---415 East 8th Street.  
P. O. Box 187. Telephone, 36. O. L. Barnes, in charge.  
Studies on the biology and control of grasshoppers and of insects  
affecting alfalfa grown for hay and seed.

Tucson

Cotton Insect Investigations (laboratory).---Room 232, Federal Building,  
Broadway and Scott Streets. P. O. Box 1910. Telephone, 1519.  
W. A. Stevenson, in charge.

Investigations of hemipterous and other insects of cotton and their  
control. Cotton insect surveys in Arizona, California, and New Mexico.

Pink Bollworm Control (suboffice of Phoenix, Ariz., office).---Room 311,  
Post Office Building. P. O. Box 924. Telephone, 1960. L. B. Curtis,  
in charge.

Quarantine operations against the pink bollworm and *Thurberia weevil*.

## CALIFORNIA

### Albany

Foreign Parasite Introduction (laboratory).—1050 San Pablo Avenue,  
University of California. J. K. Holloway, in charge.

Rearing, colonization, and field studies of insect enemies imported for  
biological control of the Klamath weed.

### Alhambra

Truck Crop and Garden Insect Investigations (laboratory).—1208 East Main  
Street. Telephone, Atlantic 2-1056. R. E. Campbell, in charge.  
Investigations of tomato, cabbage, onion, and bean insects.

### Anaheim

Control Investigations (sublaboratory of Beltsville, Md., laboratory).—  
Orange County Insectary, Post Office Building, 113 West Broadway.  
Telephone, 4365. G. T. Bottger, in charge.  
Insecticide-testing laboratory.

### Bakersfield

Foreign Plant Quarantines (office).—2610 M Street. P. O. Box 946. Tele-  
phone, 7-7671. L. A. Burtch, in charge.  
Enforcement of foreign plant quarantines.

### Berkeley

Forest Insect Investigations (laboratory).—Room 341, Giannini Hall,  
University of California. Telephone, Ashberry 7747. F. P. Keen,  
in charge.

Investigations, surveys, and technical supervision of insect control  
projects on national forests and parks in California.

Plant Disease Control (regional office).—2288 Fulton Street, Berkeley 4.  
Telephone, Ashberry 3-8520. W. V. Benedict, in charge.

Field direction and general supervision of the white pine blister rust  
control activities in the Pacific coast region.

Plant Disease Control (regional office).—Room 4, Forestry Building,  
University of California. Telephone, Ashberry 5252. H. R. Offord,  
in charge.

Laboratory and field tests of chemical and mechanical measures for  
control of white pine blister rust.

Calixico

Foreign Plant Quarantines (office).--Room 203, U. S. Border Station, 1st and Hefferman Streets. Box 707. Telephone, 428. O. A. Pratt, in charge.

Enforcement of foreign plant quarantines.

Chico

Fruit Insect Investigations (office).--336 Broadway. Telephone, 2373.

E. H. Fosen, in charge.

Eradication of Hall Scale.

Davis

Bee Culture (laboratory).--Room 244, Animal Science Building, Agricultural College. Telephone, 3611, extension 237. G. H. Vansell, in charge.

Studies in pollination and Pacific Coast methods of beekeeping.

Eureka

Foreign Plant Quarantines (office).--833 Sixth Street. P. O. Box 486.

Telephone, 797. E. Mills, in charge.

Enforcement of foreign plant quarantines.

Fresno

Fruit Insect Investigations (laboratory).--712 Elizabeth Street, Fresno 3.

Telephone, 2-8631. P. Simmons, in charge.

Biology and control of dried-fruit insects.

Los Angeles

Foreign Plant Quarantines (office).--Room 600, 808 North Spring Street, Los Angeles, 12. Telephone, Mutual 9211, station 3258. H. J. Ryan, in charge.

Enforcement of foreign plant quarantines.

Foreign Plant Quarantines (office).--Room 204, State Building, 217 West First Street, Los Angeles 12. Telephone, Madison 1271, extension 771. L. L. Cranford, in charge.

Enforcement of foreign plant quarantines.

Monterey

Foreign Plant Quarantines (office).--1261 Second Avenue. Telephone, Monterey 8168. R. N. Weir, in charge.

Enforcement of foreign plant quarantines.

Oxnard (Port Hueneme)

Foreign Plant Quarantines (office).—Oxnard Chamber of Commerce, 345 North 5th Street. Mailing address: Oxnard, Calif. Telephone, Oxnard 62213. W. M. Dunning, in charge.  
Enforcement of foreign plant quarantines.

Riverside

Domestic Plant Quarantines (regional office of San Antonio, Tex., office).—Room 200, Federal Building. P. O. Box 1066. Telephone; 3613. C. H. Rothe, in charge.

Peach mosaic control and eradication activities in the western area.

Fruit Insect Investigations (laboratory).—Post Office Building. P. O. Box 1066. Telephone, 3613. L. S. Jones, in charge.

Studies of possible insect vectors of peach mosaic and other virus diseases of stone fruits. (R&M project)

Sacramento

Cereal and Forage Insect Investigations (laboratory).—Room 476, Federal Building, Ninth and I Streets. P. O. Box 1857. Telephone, Main 3461. W. B. Noble, in charge.

Studies of hessian fly control in wheat and pea aphid control in alfalfa.

Foreign Plant Quarantines (office).—State Office Building No. 1, Tenth and L Streets, Sacramento 14. Telephone, Capitol 2-4711, extensions 3248 and 3249. A. P. Messenger, in charge.  
Enforcement of foreign plant quarantines.

Grasshopper Control (suboffice of Denver, Colo., office).—Room 211, California Fruit Building, 1006 Fourth Street. P. O. Box 1885. Telephone, 3-7283. S. S. Smith, in charge.

State headquarters for grasshopper control activities.

Salinas

Foreign Plant Quarantines (office).—Courthouse, Church and West Alisal Streets. Telephone, Salinas 3911, extension 21. P. A. Kantor, in charge.  
Enforcement of foreign plant quarantines.

San Diego

Foreign Plant Quarantines (office).—Room 308, Broadway Pier Building, San Diego, 12. P. O. Box 617. Telephone, Franklin 9-1338. R. H. Buffham, in charge.

Enforcement of foreign plant quarantines.

San Francisco

Foreign Plant Quarantines (office).--Room 24, Agriculture Building, Embarcadero at foot of Mission Street, San Francisco 5. Telephone, Humboldt 3-8177. C. E. Cooley, Supervisor, California and Hawaii area.

Supervision of the enforcement of foreign plant quarantines in California and Hawaii area.

Foreign Plant Quarantines (office).--Room 2, Agriculture Building, Embarcadero at foot of Mission Street, San Francisco 5. Telephone, Garfield 1-0513. W. N. Ross, in charge.

Enforcement of foreign plant quarantines.

San Luis Obispo

Foreign Plant Quarantines (office).--P. O. Box 637, Agriculture Inspection Building, Courthouse Grounds. Telephone, 1344. T. Chalmers, in charge.

Enforcement of foreign plant quarantines.

San Pedro

Foreign Plant Quarantines (office).--Room 104, Ferry Building. P. O. Box 401. Telephone, Terminal 2-5597. R. D. Clemens, in charge.

Enforcement of foreign plant quarantines.

San Ysidro

Foreign Plant Quarantines (office).--Room 229, Federal Building, International Border. Telephone, 2401. F. E. Swan, in charge.

Enforcement of foreign plant quarantines.

Santa Barbara

Foreign Plant Quarantines (office).--P. O. Box 127, Service Building, Courthouse. Telephone, 3943-44. W. S. Cummings, in charge.

Enforcement of foreign plant quarantines.

Santa Paula

Foreign Plant Quarantines (office).--County Agricultural Building, 815 Santa Barbara Street. P. O. Box 889. Telephone, 258. C. J. Barrett, in charge.

Enforcement of foreign plant quarantines.

Stockton

Foreign Plant Quarantines (office).--Agricultural Building, Hazelton and B Streets. P. O. Box 1809. Telephone, 6-6806. A. E. Mahoney, in charge.

Enforcement of foreign plant quarantines.

Ventura

Foreign Plant Quarantines (office).--Agricultural Building, Ventura Junior College, 2155 East Main Street. Telephone, Ventura 6131. Albert Bicker, in charge.

Enforcement of foreign plant quarantines.

Truck Crop and Garden Insect Investigations (laboratory).--Mound Avenue on Palomares Tract, 1/4 mile east of Five Points (no street number). P. O. Box 1330. Telephone, 5636. M. W. Stone, in charge.

Investigations of wireworms.

Whittier

Fruit Insect Investigations (laboratory).--724 Earlham Drive. P. O. Box 70. Telephone, 432-10. A. W. Cressman, in charge.

Investigations of California red scale, and other insects affecting citrus.

CANAL ZONE

Balboa

Fruit Fly Investigations (laboratory).--Building 0902, Amador Road. P.O. Drawer C. Telephone, 2485. J. Zetek, in charge.

Investigations on biology, host-fruit relations, and control of the Central American Fruit flies.

COLORADO

Denver

Grasshopper Control (divisional headquarters).--131 Speer Boulevard, Denver 3, Colo. Telephone, Tabor 2329. Claude Wakeland, in charge. Headquarters for grasshopper control activities in 24 Central and Western states, Mormon cricket control in 12 Great Plains and Rocky Mountain States, and chinch bug control work in the Central States, and in North Carolina.

Fort Collins

Forest Insect Investigations (laboratory).--Room 308, Agriculture Building, Colorado A. and M. College. Telephone, 1101, extension 67. N. D. Wygant in charge.

Investigations, surveys and technical supervision of insect control projects on national forests and parks in the central and southern Rocky Mountain regions.

Grasshopper Control (suboffice of Denver, Colo., office).--Old Electrical Engineering Building, Colorado State College of Agriculture. P. O. Box 276. Telephone, 1101, extension 18. K. R. Bakke, in charge.  
State headquarters for grasshopper and Mormon cricket control activities.

Plant Disease Control (suboffice of Minneapolis, Minn., office).--Old Electrical Building, Colorado State College of Agriculture. P. O. Box 276. Telephone, 1101, E. A. Lungren, in charge.  
State leadership of the black stem rust control activities in Colorado and Wyoming.

Palisade

Domestic Plant Quarantines (suboffice of Riverside, Calif., regional office.)--Palisade National Bank Building. P. O. Box 145, telephone 57. M. A. Sisson, in charge.  
Peach Mosaic control and eradication work in Colorado and Utah.

CONNECTICUT

Danielson

Gypsy Moth Control (suboffice of New Haven, Conn. office).--Connecticut Agricultural Experiment Station. P. O. Box 325. Telephone, 373. O. B. Cooke, in charge.  
Supervision of scouting and control work against the gypsy moth.

Manchester

Japanese Beetle Control (district office of Waltham, Mass. office).--47 Essex Street. P. O. Box 63, Station A. Telephone, 4482. C. H. Phillips, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy Moth and brown-tail moth, including inspection and certification service.

Middletown

Japanese Beetle Control (district office of Waltham, Mass., office).--578 High Street. P. O. Box 45. Telephone, 1613. J. F. McDevitt, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

New Haven

Forest Insect Investigations (laboratory).--335 Prospect Street, New Haven 11. Telephone, 8-3082. R. C. Brown, in charge.

Investigations of native and introduced insect pests of forest and shade trees and their control.

Gypsy Moth Control (office).--Office of State and Station Entomologist, Connecticut Agricultural Experiment Station, 123 Huntington Street, New Haven 4. P. O. Box 1106. Telephone, 5-4173. R. B. Friend, in charge.

State leadership in cooperative control of the gypsy moth.

Japanese Beetle Control (district office of Waltham, Mass., office).--123 Huntington Street. P. O. Box 1106. Telephone, 5-4173. M. F. Zappe, in charge.

Enforcement of quarantine on Japanese Beetle, including inspection and certification service.

Plant Disease Control (suboffice of Cambridge, Mass., office).--Room 118, State Agricultural Experiment Station, 123 Huntington Street, New Haven 4. Mail address: P. O. Box 1106. Telephone, 6-3591 (BRC). J. E. Riley, Jr., in charge.

State leadership in white pine blister rust control activities.

Woodbury

Gypsy Moth Control (suboffice of Greenfield, Mass., office).--Main Street P. O. Box 224. Telephone, 363. H. N. Bean, in charge.

Supervision of scouting and control work against the gypsy moth.

DELEWARE

Harrington

Japanese Beetle Control (district office of Salisbury, Md., suboffice).--Harrington, Del. Telephone, 404. W. G. Stokes, in charge.

Enforcement of Japanese beetle quarantine, including inspection and certification service.

DISTRICT OF COLUMBIA

Washington

Domestic Plant Quarantines (office).--Room 2151, South Building, United States Department of Agriculture, Washington 25, D. C. Telephone Republic 4142, extension 4587. F. P. Hubert, in charge.  
District of Columbia plant pest regulations and transit inspection.

Foreign Plant Quarantines (office).--Inspection House, 224 12th Street, S. W., Washington 25, D. C. Telephone, Republic 4142, extension 2598. W. B. Wood, in charge.  
Enforcement of foreign plant quarantines.

Insect Identification (laboratory).--Room 3130, South Building, United States Department of Agriculture, Washington 25, D. C. Telephone, Republic 4142, extension 4381. C. F. W. Muesebeck, in charge.

Identification of all stages of insects for the Bureau, for other bureaus of the United States Department of Agriculture and other Federal agencies, for the State and experiment station entomologists, and others; research in insect classification.

## FLORIDA

### Gainesville

Foreign Plant Quarantines (office).--State Plant Board of Florida, Room 507, John F. Seagle Building, West University Avenue. Telephone, 341. W. H. Merrill, in charge.

Enforcement of foreign plant quarantines.

### Jacksonville

Domestic Plant Quarantines (office).--Room 445, New Post Office Building, 311 West Monroe Street, Jacksonville 1. P. O. Box 1713. Telephone, 4-7111, extension 63. G. D. Barcus, in charge.

Transit-inspection activities.

Foreign Plant Quarantines (office).--Room 445, New Post Office Building, 311 West Monroe Street, Jacksonville 1. P. O. Box 1713. Telephone, 4-7111, extension 63. G. D. Barcus, in charge.

Enforcement of foreign plant quarantines.

### Key West

Foreign Plant Quarantines (office).--Room 226, New Federal Building, 307 Simonton Street. P. O. Box 990. Telephone, 299. R. G. Milner, in charge.

Enforcement of foreign plant quarantines.

### Miami

Foreign Plant Quarantines (office).--Pier No. 2, Warehouse 2-A City Dock, 2d Floor (telegrams and express only), Miami 5. Mailing address: P. O. Box 842. Telephone, 33505. C. R. Shepard, in charge.

Enforcement of foreign plant quarantines.

Foreign Plant Quarantines (office).--Plant Inspection House, Building T-202, Avenue A, International Airport, Miami 25. Box 4021. Telephone, 88-2495. B. P. Stewart, in charge.

Enforcement of foreign plant quarantines.

### Monticello

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--P. O. Box 101. E. H. Frederic, in charge.  
Sweetpotato weevil control and eradication.

Fruit Insect Investigations (laboratory).--Florida Agricultural Experiment Substation, Waukeenah Road, 1-1/2 miles south. Box 25. A. M. Phillips, Investigations of pecan insects.

### Orlando

Insects Affecting Man and Animals (laboratory).--636 West Livingston Avenue. P. O. Box 3391. Telephones, 6151, 6152, and 6153. W. V. King, in charge.

Research on insects affecting the armed forces. Development of insect repellents for the armed forces.

### Pensacola

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--Room 18, Federal Building. P. O. Box 343. Telephone, 5652. T. W. Boyd, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

Foreign Plant Quarantines (office).--Room 312-B, Federal Building, Palafox and Chase Streets. P. O. Box 606. Telephone, 7944. H. G. Jackson, in charge.

Enforcement of foreign plant quarantines.

### Port Everglades

Foreign Plant Quarantines (office).--Room 102, Customhouse. Mailing address: P. O. Box 538, Fort Lauderdale, Fla. Telephone, Fort Lauderdale 667. R. B. Linger, in charge.

Enforcement of foreign plant quarantines.

### Quincy

Truck Crop and Garden Insect Investigations (laboratory).--209 Washington Street. P. O. Box 549. Telephone, 243-R. F. S. Chamberlin, in charge.

Survey of insects affecting vegetable crops, and investigations on tobacco insects.

Saint Lucie

Fruit Insect Investigations (laboratory).--P. O. Box 112, Fort Pierce, Fla.  
Telephone, Fort Pierce 183. Herbert Spencer, in charge.  
Investigations on citrus mites, scale insects, and other subtropical  
fruit insects.

Tampa

Foreign Plant Quarantines (office).--Room 113, U. S. Customs Appraisers  
Stores Building, corner Platt and Water Streets, Tampa 1. P. O. Box  
266. Telephone, M-58-621. R. D. Potter, in charge.  
Enforcement of foreign plant quarantines.

West Palm Beach

Foreign Plant Quarantines (office).--Room 216, Federal Building, Olive and  
Fern Streets. Box 2265. Telephone, 4751. G. A. Helseth, in charge.  
Enforcement of foreign plant quarantines.

FRANCE

Rueil-Malmaison (Paris)

Foreign Parasite Introduction (laboratory).--58 rue Jules Parent. H. L.  
Parker, in charge.  
Collection and importation of natural enemies of agricultural pests.

GEORGIA

Albany

Fruit Insect Investigations (laboratory).--Fairgrounds, North Jefferson  
and Eighth Streets. P. O. Box 107. Telephone, 127. G. F. Moznette,  
in charge.  
Investigations of pecan insects.

Atlanta

Domestic Plant Quarantines (suboffice of Houston, Tex., office).--Atlanta  
Terminal Railway Post Office. Telephone, Main 3517, extension 79.  
H. M. Williams, in charge.  
Transit-inspection activities.

Foreign Plant Quarantines (office).--Room 527, New Post Office Building.  
Telephone, Main 3517, extension 268. (Temporarily vacant), in charge.  
Enforcement of foreign plant quarantines.

Covington

Domestic Plant Quarantines (suboffice of Macon, Ga., office).--2d Floor, Masonic Building. P. O. Box 648. Telephone, 2128. T. E. Kinsey, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

Dublin

Domestic Plant Quarantines (suboffice of Macon, Ga., office).--Post Office Building. P.O. Box 493. Telephone, 118. W. Vick, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

Fitzgerald

Domestic Plant Quarantines (suboffice of Macon, Ga., office).--Chamber of Commerce Building. P. O. Box 212. Telephone, 38. P. G. Geiger, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

Fort Valley

Cereal and Forage Insect Investigations (sublaboratory of Florala, Ala., laboratory).--Basement, Post Office Building. P. O. Box 297. Telephone, 523. J. B. Gill, in charge.

White-fringed beetle seasonal development and cultural control.

Control Investigations (laboratory).--P. O. Box 914. Telephone, 1200.

G. R. Swank, in charge.

Development of treatments for plants, plant products and soil regulated by the white-fringed beetle quarantine.

Fruit Insect Investigations (laboratory).--Church Street. Box 527. Telephone, 53. O. I. Snapp, in charge.

Investigations on the control of insects attacking peach trees.

Fruit Insect Investigations (laboratory).--U. S. D. A. Horticultural Laboratory. P. O. Box 162. Telephone, 29. W. F. Turner, in charge.

Studies of insect vectors of the phony peach disease.

Macon

Domestic Plant Quarantines (office).--616 Mulberry Street. P. O. Box 896. Telephone, Ivy 510. G. G. Rohwer, in charge.

South Atlantic coast field headquarters for control, suppression, and prevention of spread of white-fringed beetles.

Domestic Plant Quarantines (suboffice of Macon, Ga., office).-- 616 Mulberry Street. P. O. Box 896. Telephone, Ivy 510. K. R. Parkinson, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

Domestic Plant Quarantines (suboffice of San Antonio, Tex., office).--616  
Mulberry Street. Telephone, Ivy 896. T. D. Persons, in charge.  
Phony peach disease control and eradication.

Domestic Plant Quarantines (regional office of San Antonio, Tex., office).--  
616 Mulberry Street. Telephone, Ivy 896. H. L. Bruer, in charge.  
Phony peach disease control and eradication activities in the Southeastern States.

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--616  
Mulberry Street. Telephone, Ivy 510. G. W. R. Davidson, in charge.  
Technical field studies on white-fringed beetle control.

Oglethorpe

Domestic Plant Quarantines (suboffice of Macon, Ga., office).--County Court-  
house, c/o County Agent. P. O. Box 221. Telephone, 31. G. C. Bryant,  
in charge.  
Control, suppression, and prevention of spread of white-fringed beetles.

Savannah

Foreign Plant Quarantines (office).--Room 107, Customhouse. Telephone,  
3-3221. V. C. Durham, in charge.  
Enforcement of foreign plant quarantines.

Insects Affecting Man and Animals (laboratory).--Fair Grounds. Box 78.  
Telephone, 3-7675. W. G. Bruce, in charge.  
Investigations of ticks affecting man, flies that contaminate foods, and  
screw-worm advices.

Statesboro

Domestic Plant Quarantines (suboffice of Macon, Ga., office).--County Agent's  
Office, P. O. Box 641. Telephone, 276. J. B. Smith, in charge.  
Control, suppression, and prevention of spread of white-fringed beetles.

Tifton

Cereal and Forage Insect Investigations (sublaboratory of Manhattan, Kans.,  
laboratory).--Coastal Plain Experiment Station. D. W. La Hue, in  
charge.

Investigations of insects attacking stored corn and corn products in  
the Southeastern Coastal Plains region. (R&M project)

Cotton Insect Investigations (laboratory).--Coastal Plain Experiment Sta-  
tion, Moore Highway 1 mile northwest of Tifton. Telephone, Tifton  
500 or 168. P. M. Gilmer, in charge.  
Control of boll weevil and other insects of cotton. Cotton insect  
surveys in Florida and Georgia.

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).—C. W. Fulwood Building, Second Street. P. O. Box 181. Telephone, 1269. F. R. Blackwell, in charge. Sweetpotato weevil control and eradication.

## HAWAII

### Hilo

Foreign Plant Quarantines (office).—Room 236, Federal Building, L. K. Jones, in charge. Enforcement of foreign plant quarantines.

Foreign Plant Quarantines (office).—2336 Kalanianeʻole Street. P. O. Box 554. Telephone, 7977. Wm. Look, in charge. Enforcement of foreign plant quarantines.

### Honolulu

Foreign Plant Quarantines (office).—Room 248, Federal Building, Honolulu 9. P. O. Box 340. Telephone, Honolulu 6361, extension 17. C. L. Ritchie, in charge.

Enforcement of quarantine governing movement of fruits and vegetables from Hawaii to the mainland.

Foreign Plant Quarantines (office).—663 Ilalo Street, Honolulu 4. P. O. Box 2520. Telephone, 3820. N. L. H. Krauss, in charge. Enforcement of foreign plant quarantines.

Fruit Fly Investigations (laboratory).—Fruit Fly Laboratory, Bureau of Entomology and Plant Quarantine, Honolulu 4. P. O. Box 2280. Telephone, 98455. J. W. Balock, in charge. Investigations of the Mediterranean fruit fly, melon fly, and the oriental fruit fly, and their control in the movement of fruit in commerce.

### Koloa (Kauai)

Foreign Plant Quarantines (office).—Board of Agriculture and Forestry. P. O. Box 1105. Telephone, 6 White 229. Stephen Au, in charge. Enforcement of foreign plant quarantines.

## IDAHO

### Coeur d'Alene

Forest Insect Investigations (laboratory).—Federal Building, Fourth Street and Lakeside Avenue (best approach is by bus from Spokane, Wash.). P. O. Box 630. Telephone, 76. J. C. Evenden, in charge. Investigations, surveys, and technical supervision of insect control projects on national forests and parks in the northern Rocky Mountain region.

Moscow

Truck Crop and Garden Insect Investigations (laboratory).---Entomology Building, University of Idaho. P. O. Box 73. Telephone, 5716. T. A. Brindley, in charge. Investigations of pea insects.

Twin Falls

Grasshopper Control (suboffice of Denver, Colo., office).---Blue Lakes Boulevard, North. P. O. Box 1100. Telephone, 1887. K. E. Evans, in charge.

State headquarters for grasshopper and Mormon cricket control activities.

Truck Crop and Garden Insect Investigations (laboratory).---Suburbs of Twin Falls, on Blue Lakes Boulevard. P. O. Box 1100. Telephone, 452. J. R. Douglass, in charge. Investigations of insects affecting sugar beets and onions.

ILLINOIS

Chicago

Domestic Plant Quarantines (suboffice of New York, N. Y., office).---Room 800, U. S. Customs Building, 610 South Canal Street, Chicago 7. Telephone, Harrison 6910, extension 267. J. M. Moran, in charge. Transit-inspection activities.

Foreign Plant Quarantines (office).---Room 800, U. S. Customhouse, 610 South Canal Street, Chicago 7. Telephone, Harrison 6910, extension 266. F. O. Dodd, in charge. Enforcement of foreign plant quarantines.

Urbana

Cereal and Forage Insect Investigations (laboratory).---Post Office Building. P. O. Box 32. Telephone, 7-4120 or University 207. R. A. Blanchard, in charge.

Investigations of insects attacking corn, including insecticides for control of the corn earworm and development of corn resistant to the earworm.

Plant Disease Control (suboffice of Minneapolis, Minn., office).---Post Office Building. P. O. Box 112. Telephone, Champaign-Urbana Exchange 7-2370. R. W. Bills, in charge. State leadership in black stem rust control activities.

INDIANA

Lafayette

Cereal and Forage Insect Investigations (laboratory).--Room 207, Post Office Building, 4th and Ferry Streets. P. O. Box 495. Telephone, 5903. Philip Luginbill, in charge.

Investigations of insects attacking cereal crops and pastures, including corn earworm, hessian fly, chinch bug and white grubs, and development of wheats resistant to the hessian fly.

Vincennes

Fruit Insect Investigations (laboratory).--1237 Washington Avenue. Telephone, 173. L. F. Steiner, in charge.

Investigations of codling moth and other fruit insects.

Insecticide Investigations (laboratory).--1237 Washington Avenue. Telephone, 173. J. E. Fahey, in charge.

Spray residue studies; chemical development of insecticides for codling moth control.

West Lafayette

Cereal and Forage Insect Investigations (sublaboratory of Toledo, Ohio, laboratory).--Purdue Agricultural Experiment Station. Mailing address: Box 606, West Lafayette. Telephone, Lafayette 2112. A. M. Vance, in charge.

Investigations to find and develop strains of corn resistant to the European corn borer.

Plant Disease Control (suboffice of Minneapolis, Minn., office).--Purdue Experiment Station Annex. Telephone, 3804. Stanley Castell, in charge. State leadership in black stem rust control activities.

IOWA

Ames

Plant Disease Control (suboffice of Minneapolis, Minn., office).--Botany Hall, Iowa State College. Telephone, 729. A. H. Hagge, in charge. State leadership in black stem rust control activities.

Muscatine

Cereal and Forage Insect Investigations (sublaboratory of Toledo, Ohio, laboratory).--Room 203, Muscatine Bank and Trust Building. Telephone, 3136. H. L. Chada, in charge.

Seasonal development and population studies of the European corn borer.

KANSAS

Garden City

Grasshopper Control (suboffice of Denver, Colo., office).---Room 9, Knox Building, 401-1/2 North Main Street. Telephone, 1556. J. S. Riss, in charge.

State headquarters for grasshopper control activities.

Hutchinson

Cereal and Forage Insect Investigations (laboratory).---Room 201, Post Office Building. Telephone, 5367. H. H. Walkden, in charge.

Research on the southwestern corn borer and on control of insects infesting stored grain.

Manhattan

Cereal and Forage Insect Investigations (laboratory).---1204 Fremont Street. Telephone, 2535. R. T. Cotton, in charge.

Studies of the control of insects attacking stored grains and milled cereal products in farm storage, mills, elevators, warehouses, and freight cars; development of varieties of wheat resistant to the hessian fly; development of alfalfa resistant to the pea aphid; and biology of grasshoppers.

LOUISIANA

Amite

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).---Room 8, Guaranty Trust Bank Building. P. O. Box 295. Telephone, 3601. W. B. Hollingsworth, in charge.

Sweetpotato weevil control and eradication.

Baton Rouge

Bee Culture (laboratory).---Agricultural Center, State University. Mailing address: University Station, Baton Rouge. Telephone, 2-4781, extension 19. W. Whitcomb, Jr., in charge.

Investigations on methods of queen rearing, package-bee production, and genetics of bees.

Truck Crop and Garden Insect Investigations (laboratory).---Louisiana Agricultural Experiment Station. Mailing address: Agricultural Center, University Branch, Baton Rouge 3. Telephone, 2-4781, extension 214. K. L. Cockerham, in charge.

Investigations on various species of cabbage caterpillars, turnip aphid, and sweetpotato weevil.

Houma

Cereal and Forage Insect Investigations (laboratory).--One mile west of Houma on U. S. Highway 90 (turn right and follow Bayou to U. S. Sugar Station). P. O. Box 387. Telephone, 499. J. W. Ingram, in charge.

Studies on sugarcane insects, insect transmission of sugarcane diseases, development of sugarcane resistant to the sugarcane borer, and parasitic enemies of sugarcane insects.

Lafayette

Control Investigations (laboratory).--Box 194, S. L. I. Station.

C. H. Gaddis, in charge.

Development of fumigation treatments for sweetpotatoes infested with sweetpotato weevil.

New Orleans

Domestic Plant Quarantines (suboffice of Houston, Tex., office).--4425

Bienville Avenue. P. O. Box 7086, Mid-city Station. Telephone, Audubon 3860. C. P. O'Brien, in charge.

Transit-inspection activities.

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--4425

Bienville Avenue. P. O. Box 7086, Mid-city Station. Telephone, Audubon 3860. C. P. O'Brien, in charge. Garage: 500 North Hennessy Street. Telephone, Audubon 3056.

Control, suppression, and prevention of spread of white-fringed beetles.

Foreign Plant Quarantines (office).--Room 200, 1539 Jackson Avenue, New Orleans 13. Telephone, Canal 6651, extension 60. W. T. Dillard, Supervisor, Gulf coast area.

Supervision of enforcement of foreign plant quarantines in the Gulf coast area.

Foreign Plant Quarantines (office).--Room 319, Customhouse, 423 Canal Street, New Orleans 16. Telephone, Magnolia 4451, extension 301. T. J. Baker, in charge.

Enforcement of foreign plant quarantines.

Opelousas

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--117

West Landry Street. P. O. Box 588. Telephone, 3506. H. I. Anderson, in charge.

Sweetpotato weevil control and eradication.

Shreveport

Fruit Insect Investigations (laboratory).--Room 608, Courthouse, Shreveport 47. Telephone, 2-5023. W. C. Pierce, in charge.

Studies of pecan shoot curculio and other pecan insects.

Tallulah

Cotton Insect Investigations (laboratory).--Two miles south of Tallulah on U. S. Highway 65. P.O. Box 830. Telephone, 49. R. C. Gaines, in charge.

Investigations of cotton insects and their control. Cotton insect surveys in Arkansas and Louisiana.

MAINE

Auburn

Plant Disease Control (district office of Augusta, Maine, suboffice).--53 Court Street. P. O. Box 33. Telephone, Lewiston 2-2852. M. G. Calderara, in charge.  
White pine blister rust control activities.

Augusta

Gypsy Moth Control (office).--Office of Chief, Division of Plant Industry, State House. Telephone, 1200. E. L. Newdick, in charge.  
State leadership in cooperative control of the gypsy moth and the brown-tail moth.

Japanese Beetle Control (district office of Plymouth, N. H., office).--22 Elm Street. P. O. Box 86. Telephone, 3029. W. J. Cullen, in charge.  
Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

Plant Disease Control (suboffice of Cambridge, Mass., office).--Maine Forest Service, State House. Telephone, 1200, extension 210.  
W. O. Frost, in charge.  
State leadership in white pine blister rust control activities.

Belfast

Plant Disease Control (district office of Augusta, Maine, suboffice).--Room 2, Post Office Building, Post Office Square. Telephone, 191.  
H. G. Bradbury, Jr., in charge.  
White pine blister rust control activities.

Bridgton

Plant Disease Control (district office of Augusta, Maine, suboffice).--40 Main Street. Telephone, 137-2. J. B. Pike, Jr., in charge.  
White pine blister rust control activities.

Fryeburg

Japanese Beetle Control (suboffice of Plymouth, N. H., office).--Oxford Street. P. O. Box 38. Telephone, 190. E. S. Russell, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth in Fryeburg area, including inspection and certification service.

Newport

Japanese Beetle Control (district office of Plymouth, N. H., office).--52 Water Street. Telephone, 119. D. J. Frazier, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

Orono

Truck Crop and Garden Insect Investigations (laboratory).--c/o Agricultural Experiment Station, Orono (November to March); c/o Aroostook Farms, Presque Isle, Route 2 (April to October). Telephone, 441, extension 4. W. A. Shands, in charge.

Investigations of aphids attacking seed and culinary potatoes.

South Portland

Japanese Beetle Control (district office of Plymouth, N. H., office).--14 Union Street. P. O. Box 1761, Portland, Maine. Telephone, Portland 3-6597. W. E. Rodgers, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

York Village

Gypsy Moth Control (suboffice of Augusta, Maine, office).--Division of Plant Industry, York Street. Telephone, 458-W. N. R. Trafton, in charge.

Supervision of scouting and control work against the gypsy moth and the brown-tail moth.

MARYLAND

Baltimore

Foreign Plant Quarantines (office).--Rooms 200-201, Customhouse, Gay, Water, and Lombard Streets, Baltimore 2. Telephone, Plaza 8460, extension 73. W. A. Rank, in charge.

Enforcement of foreign plant quarantines.

Japanese Beetle Control (regional office).--Room 214, McCawley Building,  
400 East Lombard Street. Telephone, Plaza 8460, extension 41.

M. J. Kelly, in charge.

Enforcement of Japanese beetle quarantine in southern region, including inspection and certification service.

#### Beltsville\*

Bee Culture (divisional headquarters).--Room 110, Building A, Agricultural Research Center. Telephone, Tower 6430, extension 19. J. I. Hambleton, in charge.

General supervision of all apicultural activities of the Bureau; investigations on bee diseases, and the antibiotic properties of the causative organism of American foulbrood.

Cereal and Forage Insect Investigations (laboratory).--Room 108, Building 4.7 C, Agricultural Research Center. Telephone, Tower 6430, extension 113. F. W. Poos, in charge.

Investigations of insects affecting legume seed production; studies of the transmission of Stewart's disease of corn, peanut insects, miscellaneous forage crop insects, development of wheat resistant to the hessian fly, and hessian fly parasites.

Control Investigations (laboratory).--Room 101, Laboratory A, Agricultural Research Center. Telephone, Tower 6430.

Investigations on insect physiology and toxicology: Telephone extension 18. F. H. Babers, in charge.

Testing of insecticides: Telephone extension 18. R. H. Nelson, in charge.

Development of new methods of applying insecticides: Telephone extension 151. A. H. Yeomans, in charge.

Development of methods of treatment for plants and plant products regulated by plant quarantines: Telephone extension 151. Randall Latta, in charge.

Development of methods for aircraft disinfection: Telephone extension 151. O. C. McBride, in charge.

Forest Insect Investigations (divisional headquarters).--Room 101, Entomology Building C, Agricultural Research Center. Telephone, Tower 6430, extensions 111 and 112. F. C. Craighead, in charge.

General supervision of investigations of the insects which injure forest, shade, and ornamental trees and shrubs, and crude and finished forest products. Laboratory and field studies on special problems.

Forest Insect Investigations (laboratory).--Room 4, Entomology Building C, Agricultural Research Center. Telephone, Tower 6430, extension 60.

J. S. Yuill, in charge.

Development of equipment and spray mixtures for the aerial application of insecticides.

\* For telephone calls from U. S. Department of Agriculture to the Agricultural Research Center, Beltsville, Md., dial CODE 82.

Fruit Insect Investigations (laboratory).--Room 202, Building A, Agricultural Research Center. Telephone, Tower 6430, extension 20.  
E. H. Siegler, in charge.

Development and laboratory testing of new materials for control of mites, chestnut weevils, codling moth, and other fruit insects.

Insecticide Investigations (divisional headquarters).--Room 104, South Laboratory Building, Agricultural Research Center. Telephone, Tower 6430, extensions 121 and 148. R. C. Roark, in charge.

General supervision of chemical investigations on the development of new insecticides, improvement of existing ones, analytical and consulting service for the Bureau, and spray-residue studies.

Truck Crop and Garden Insect Investigations (laboratory).--Room 2, Building H, Agricultural Research Center. Telephone, Tower 6430, extension 21.  
C. A. Weigel, in charge.

Investigations of insects affecting flowers, bulbs, and mushrooms.

#### Frederick

Japanese Beetle Control (office).--409-11 Middle Alley (rear 410-12 North Market Street). Telephone, 822. W. H. McCambley, in charge.  
Garage and storehouse.

#### Salisbury

Japanese Beetle Control (suboffice of Baltimore, Md., office).--Room 205, New Post Office Building. Telephone, 1508. C. E. Eifler, in charge.  
Enforcement of Japanese beetle quarantine in Delaware and Eastern Shores of Maryland and Virginia, including inspection and certification service.

### MASSACHUSETTS

#### Boston

Domestic Plant Quarantines (suboffice of New York, N. Y., office).--Room 405, 408 Atlantic Avenue, Boston 10. Telephone, Hancock 6-4423.  
J. P. Canning, in charge.  
Transit-inspection activities.

Foreign Plant Quarantines (office).--408 Atlantic Avenue, Boston 10. Telephone, Hancock 6-4423. W. H. Freeman, in charge.  
Enforcement of foreign plant quarantines.

Gypsy Moth Control (office).--Office of Chief Moth Suppressor, Department of Conservation, 15 Ashburton Place, Boston 8. Telephone, Capitol 4600, extension 775. H. L. Ramsey, in charge.

State leadership in cooperative control of the gypsy moth and the brown-tail moth.

Japanese Beetle Control (suboffice of Waltham, Mass., office).--Room 405,  
408 Atlantic Avenue. Telephone, Hancock 6-4423. P. H. Meagher, in  
charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth in Boston area, including inspection and certification service.

Plant Disease Control (suboffice of Cambridge, Mass., office).--The Boston  
Building, 41 Tremont Street, Boston 8. Telephone, Lafayette 3-2050,  
extension 55. C. C. Perry, in charge.

State leadership in white pine blister rust control activities.

#### Cambridge

Plant Disease Control (regional office).--Room 206, Federal Building,  
Cambridge 39. Telephone, Kirkland 7-2551. E. C. Filler, in charge.

Field direction and general supervision of white pine blister rust control activities in the northeastern region.

#### Framingham

Japanese Beetle Control (district office of Waltham, Mass., office).--15  
Walnut Street. P. O. Box 465. Telephone, 2-9621. C. H. Huntington,  
in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

#### Greenfield

Gypsy Moth Control (divisional headquarters).--20 Sanderson Street. P. O.  
Box 311. Telephone, 3648. J. M. Corliss, in charge.

General supervision of field control work on the gypsy moth and the brown-tail moth to maintain a suppressive area against the westward spread of the gypsy moth, and to coordinate cooperative State work.

Plant Disease Control (district office of Boston, Mass., suboffice).-- 20  
Sanderson Street, c/o Gypsy Moth Control Office. Telephone, 3648.  
G. S. Doore, in charge.

White pine blister rust control activities.

#### Middleboro

Japanese Beetle Control (district office of Waltham, Mass., office).--56  
Everett Street. P. O. Box 528. Telephone, 344. Jeremiah Keefe, in  
charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

Pittsfield

Gypsy Moth Control (suboffice of Greenfield, Mass., office).--8 Allengate Avenue.. P. O. Box 584. Telephone, 2-7139. W. W. Bancroft, in charge.  
Supervision of scouting and control work against the gypsy moth.

Wakefield

Plant Disease Control (district office of Boston, Mass., suboffice).--Room 11, Post Office Building, 361 Main Street. Telephone, Crystal 9-2325-W. E. M. Brockway, in charge.  
White pine blister rust control activities.

Waltham

Japanese Beetle Control (regional office).--114 Moody Street. Telephone, Waltham 5-2188. W. J. Powers, in charge.

S. L. Arndt, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

### Warrensburg

Plant Disease Control (district office of Albany, N. Y., suboffice).--

Warrensburg. N. H. Harpp, in charge.

White pine blister rust control activities.

### NORTH CAROLINA

#### Asheville

Forest Insect Investigations (laboratory).--Room 223, Federal Building.

Telephone, 3131. (Temporarily vacant), in charge.

Studies of bark beetles affecting southern pines and of protection of forest products from insect attack.

Japanese Beetle Control (suboffice of Baltimore, Md., office).--72 Pearson Drive. P. O. Box 1825. Telephone, 4113. H. O. Windsor, in charge.

Enforcement of Japanese beetle quarantine in Asheville area, including inspection and certification service.

#### Fayetteville

Domestic Plant Quarantines (suboffice of Wilmington, N. C., regional office).--

Basement, County Courthouse. P. O. Box 283. Telephone, 5143.

W. G. Johnston, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

#### Goldsboro

Domestic Plant Quarantines (suboffice of Wilmington, N. C., regional office).--

Farm Office Building. P. O. Box 83. Telephone, 71. H. M. McMahan, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

#### Oxford

Truck Crop and Garden Insect Investigations (laboratory).--Tobacco Research

Laboratory Building adjacent to Oxford Test Farm, Providence Road.

P. O. Box 1011. Telephone, 537. C. F. Stahl, in charge.

Investigations of insects on growing flue-cured tobacco plants.

Wilmington

Domestic Plant Quarantines (regional office of Macon, Ga., office).--Room 235, Post Office Building. P. O. Box 938. Telephone, 7113. W. A. Whitmer, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

Domestic Plant Quarantines (suboffice of Wilmington, N. C., regional office).--Room 235, Post Office Building. P. O. Box 938. Telephone, 7113. M. T. Pender, in charge.

Control, suppression, and prevention of spread of white-fringed beetles.

NORTH DAKOTA

Fargo

Grasshopper Control (suboffice of Huron, S. Dak., suboffice).--State College Station. P. O. Box 2408. Telephone, 2-2788. Oscar Pearson, in charge.

State headquarters for grasshopper control activities.

Plant Disease Control (suboffice of Minneapolis, Minn., office).--Room 202 Science Hall, State College Station. Box 3906. Telephone, 5060. G. C. Mayoue, in charge.

State leadership of black stem rust control activities in North Dakota and Montana.

Minot

Cereal and Forage Insect Investigations (laboratory).--County Courthouse. P. O. Box 1824. Telephone, 2116. E. G. Davis, in charge.

Biology and control of wheat stem sawfly.

OHIO

Cleveland

Foreign Plant Quarantines (office).--Room 3067, Main Post Office Building. Telephone, Cherry 7300, extension 55. U. R. Kuhn, in charge. Enforcement of foreign plant quarantines.

Japanese Beetle Control (district office of Kingston, N. Y., office).--18000 Euclid Avenue. Telephone, Kenmore 3401. G. W. Burke, in charge. Enforcement of Japanese beetle quarantine, including inspection and certification service.

Columbus

Bee Culture (laboratory).--Legume Seed Research Laboratory, 4299 North High Street. Telephone, Jefferson 7379. A. W. Woodrow, in charge.  
Pollination studies in connection with legume seed production.

Cereal and Forage Insect Investigations (sublaboratory of Beltsville, Md., laboratory).--Legume Seed Research Laboratory, 4299 North High Street. Telephone, Jefferson 7379. B. A. App, in charge.  
Investigations of insects affecting legume seed production.

Forest Insect Investigations (laboratory).--P. O. Box 244, Station G, Columbus 7. Telephone, Franklin County 7-5690. R. R. Whitten, in charge.

Investigations of insect vectors of the phloem necrosis disease of elm and of the Dutch elm disease.

Plant Disease Control (suboffice of Minneapolis, Minn., office).--Room 449, Post Office Building, Columbus 16. P. O. Box 746. Telephone, Main 6411, extension 281. Harry Atwood, in charge.  
State leadership in black stem rust control activities.

Plant Disease Control (suboffice of Milwaukee, Wis., office).--Room 500-K, New Federal Building. Box 1815. L. E. Nelson, in charge.  
Area supervision of white pine blister rust control activities.

Truck Crop and Garden Insect Investigations (laboratory).--151 West Eleventh Avenue. Telephone, University 9910. N. F. Howard, in charge.  
Investigations of insecticides for control of insects affecting vegetables.

Sandusky

Fruit Insect Investigations (laboratory).--Bliss Building, 409 Columbus Avenue. Telephone, M-491-J. G. W. Still, in charge.  
Investigations on grape insects.

Toledo

Cereal and Forage Insect Investigations (laboratory).--2256 Collingwood Avenue. Telephone, Adams 4017. W. G. Bradley, in charge.  
Field headquarters for European corn borer investigations.

Office of Chief of Bureau (office).--3620 River Road. Telephone, Walbridge 5182. Mailing address: P. O. Box 88, Station E, Toledo 9. Kenneth Messenger, in charge.

Headquarters for the development of insecticide dispersing equipment and for liaison on such equipment between this Bureau, the Bureau of Plant Industry, Soils, and Agricultural Engineering, other Federal agencies, State agencies, industry, etc.

Wooster

Fruit Insect Investigations (laboratory).---Ohio Agricultural Experiment Station. R. W. Rings, in charge.  
Studies of the oriental fruit moth.

OKLAHOMA

Altus

Pink Bollworm Control (office).---119 $\frac{1}{2}$  North Hudson Street. P. O. Box 692. Telephone, 1849. W. H. Gohmert, in charge.  
Quarantine operations against the pink bollworm.

Pink Bollworm Control (suboffice of Altus, Okla., office).---119 $\frac{1}{2}$  North Hudson Street. P. O. Box 692. Telephone, 1849. W. F. Senette, in charge.  
Quarantine operations against the pink bollworm.

Elk City

Pink Bollworm Control (suboffice of Altus, Okla., office).---903 $\frac{1}{2}$  West 5th Street. Box 222. Telephone, 821-W. J. S. Wilson, in charge.  
Quarantine operations against the pink bollworm.

Stillwater

Cereal and Forage Insect Investigations (laboratory).---Entomology Department, Oklahoma A. & M. College. Telephone, 21-W. R. G. Dahms, in charge.

Development of Cereal crop varieties resistant to chinch bug, greenbug, and other insect pests.

Grasshopper Control (suboffice of Waco, Tex., suboffice).---c/o Agricultural Extension Service. Telephone, 3293. W. O. Ridgway, in charge.  
Headquarters for grasshopper control activities in Oklahoma.

OREGON

Corvallis

Fruit Insect Investigations (laboratory).---Oregon Agricultural Experiment Station. S. C. Jones, in charge.  
Studies on biology and control of pear thrips on prunes.

Insects Affecting Man and Animals (laboratory).---Box 332. A. W. Lindquist, in charge.

Biology and control of mosquitoes and deer flies in the Pacific Northwest and Alaska.

Forest Grove

Cereal and Forage Insect Investigations (laboratory).--322 North Fifth Street, P. O. Box 278. Telephone, 198-W. M. W. Reeher, in charge. Investigations of insects affecting legume seed production.

Truck Crop and Garden Insect Investigations (laboratory).--322 North Fifth Street, P. O. Box 278. Telephone, 198-W. J. C. Chamberlin, in charge. Pea insect Investigations on equipment and companion formulation.

Pendleton

Grasshopper Control (suboffice of Walla Walla, Wash., suboffice).--319½ Northeast First Street. Telephone, 2045. H. S. Summers, in charge. Headquarters for grasshopper and Mormon cricket control activities in Oregon.

Portland

Foreign Plant Quarantines (office).--439 U. S. Courthouse, 620 S. W. Main Street, Portland 5. Telephone, Atwater 6171, extension 607. G. C. Martin, in charge. Enforcement of foreign plant quarantines.

Forest Insect Investigations (laboratory).--Room 445, U. S. Courthouse, Sixth and Main Streets, Portland 5. Telephone, Atwater 6171, extension 632. R. L. Furniss, in charge. Investigations, surveys, and technical supervision of insect control projects on national forests and parks in Oregon and Washington.

PENNSYLVANIA

Ardmore

Japanese Beetle Control (suboffice of Trenton, N. J., office).--669 Aubrey Avenue. P. O. Box 426. Telephone, 6116. E. J. Ford, in charge. Enforcement of Japanese beetle quarantine in eastern Pennsylvania, including inspection and certification service.

Brookville

Plant Disease Control (district office of Harrisburg, Pa., suboffice).--Arthurs Building, Main Street. Telephone, 430 (c/o Red-Bank Telephone Company office). M. J. Deberti, in charge. White pine blister rust control activities.

Harrisburg

Gypsy Moth Control (office).—Office of Director, Bureau of Plant Industry. Telephone, 5151, extension 2287. T. L. Guyton, in charge.  
State leadership in cooperative control of the gypsy moth.

Plant Disease Control (suboffice of Cambridge, Mass., office).—Room 409 Educational Building, Department of Forests and Waters. Telephone, 5151, extension 3088. R. P. Fatzinger, in charge.  
State leadership in white pine blister rust control activities.

Lancaster

Japanese Beetle Control (district office of Ardmore, Pa., suboffice).—18 South West End Avenue. P. O. Box 22. Telephone, 2-5843.  
O. W. Sweigart, in charge.

Enforcement of Japanese beetle quarantine, including inspection and certification service.

Philadelphia

Foreign Plant Quarantines (office).—Room 601-A, Customhouse, Philadelphia 6. Telephone, Market 7-6000, extension 24. R. D. Kennedy, in charge.  
Enforcement of foreign plant quarantines.

Pittsburgh

Domestic Plant Quarantines (suboffice of New York, N. Y., office).—Room 502-L, Central Post Office Building, Pittsburgh 19. Mail address: Room 423, Central Post Office Building. Telephone, Grant 0800, extension 392. B. H. Petfield, in charge.  
Transit-inspection activities.

Japanese Beetle Control (suboffice of Kingston, N. Y., office).—Room 205, North Side Post Office Building, Ohio and West Diamond Streets.  
P. O. Box 6479. Telephone, Grant 0800, extension 395. C. P. Keeler, in charge.

Enforcement of Japanese beetle quarantine in Pittsburgh area, including inspection and certification service.

State College

Plant Disease Control (suboffice of Minneapolis, Minn., office).—Room 303, Botany Building. P. O. Box 220. Telephone, State College 6711, extension 291. M. A. Campbell, in charge.  
State leadership in black stem rust control activities.

West Grove

Japanese Beetle Control (district office of Ardmore, Pa., suboffice).---  
P. O. Box 18. Telephone, 4059. R. W. Skillington, in charge.  
Enforcement of Japanese beetle quarantine, including inspection and  
certification service.

Wilkes-Barre

Gypsy Moth Control (suboffice of Greenfield, Mass., office).---354 North  
River Street. Telephone, Wilkes-Barre 3-0316. K. A. Haines, in  
charge.

Gypsy moth control and eradication activities, including cooperative  
endorcement of State quarantines.

Mexican Fruit Fly Control (office).--119 North Main Street. P. O. Box 548.  
Telephone, 125. J. M. Worsham, in charge.

Enforcement of quarantine regulations on the Mexican fruit fly.

#### Lamesa

Pink Bollworm Control (suboffice of Big Spring, Tex., office).--Post Office Building. P. O. Box 67. Telephone, 138-J. G. E. Orr, in charge.

Quarantine operations against the pink bollworm.

#### Laredo

Foreign Plant Quarantines (office).--Rooms 207 and 211, Federal Building.

P. O. Box 277. Telephone, 862. J. B. R. Leary, in charge.

Enforcement of foreign plant quarantines.

Mexican Fruit Fly Control (office).--P. O. Box 2. G. H. Shiner, in charge.  
Enforcement of quarantine regulations on the Mexican fruit fly.

Pink Bollworm Control (suboffice of Harlingen, Tex., office).--1502  
Guatamozine Street. P. O. Box 141. Telephone, 758-J. T. P. Mapus,  
in charge.  
Quarantine operations against the pink bollworm.

Pink Bollworm Control (district office of Matamoras, Tamp., Mexico, sub-  
office).--P. O. Box 141. Telephone, 758-J. T. P. Mapus, in charge.  
Pink bollworm control and eradication activities in the Monterrey-  
Saltillo, Coah., Mexico, combat zone.

#### Lubbock

Pink Bollworm Control (suboffice of Big Spring, Tex., office).--Room 209,  
Federal Building. P. O. Box 1615. Telephone, 5001. M. E. Currie,  
in charge.  
Quarantine operations against the pink bollworm.

#### Lufkin

Domestic Plant Quarantines (suboffice of Gulfport, Miss., office).--Post  
Office Building. P. O. Box 661. Telephone, 323. R. N. Annand, in  
charge.  
Sweetpotato weevil control and eradication.

#### Luling

Pink Bollworm Control (suboffice of Cuero, Tex., office).--114 South Wal-  
nut Street. P. O. Box 890. G. E. Teare, in charge.  
Quarantine operations against the pink bollworm.

#### McAllen

Mexican Fruit Fly Control (office).--16 South Fifteenth Street. P. O. Box  
1263. Telephone, 562. F. O. Swan, in charge.  
Enforcement of quarantine regulations on the Mexican fruit fly.

Pink Bollworm Control (suboffice of Harlingen, Tex., office).--(Temporarily  
vacant), in charge.  
Quarantine operations against the pink bollworm.

#### Mercedes

Mexican Fruit Fly Control (office).--342 Third Street. P. O. Box 33.  
Telephone, 367. W. W. Decell, in charge.  
Enforcement of quarantine regulations on the Mexican border.

Pink Bollworm Control ( suboffice of Harlingen, Tex., office ).--(Temporarily vacant), in charge.

Quarantine operations against the pink bollworm.

Mission

Mexican Fruit Fly Control (office).--Post Office Building, 200 East 10th Street. P. O. Box 31. Telephone, 488. L. G. Plyler, in charge.  
Enforcement of quarantine regulations on the Mexican fruit fly.

Pink Bollworm Control (suboffice of Harlingen, Tex., office).--342 Third Street. (Temporarily vacant), in charge.  
Quarantine operations against the pink bollworm.

Pecos

Pink Bollworm Control (suboffice of El Paso, Tex., office).--Room 306, Post Office Building. P. O. Box 188. Telephone, 57. L. D. Harris, Alpine, Tex., in charge.  
Quarantine operations against the pink bollworm.

Pharr

Mexican Fruit Fly Control (office).--Metzger Building, 122-1/2 East Park Avenue. P. O. Box 266. Telephone, 15. W. P. Patton, in charge.  
Enforcement of quarantine regulations on the Mexican fruit fly.

Port Arthur

Foreign Plant Quarantines (office).--Room 205, Post Office and Customhouse. P. O. Box 227. Telephone, 9523. W. H. Baskin, in charge.  
Enforcement of foreign plant quarantines.

Port Lavaca

Pink Bollworm Control (suboffice of Bay City, Tex., suboffice).--P. O. Box 264. (Temporarily vacant), in charge.  
Quarantine operations against the pink bollworm.

Presidio

Foreign Plant Quarantines (office).--Customhouse. Telephone, 40. J. H. Russell, in charge.  
Enforcement of foreign plant quarantines.

Pink Bollworm Control (suboffice of El Paso, Tex., office).--L. D. Harris, Alpine, Tex., in charge.  
Quarantine operations against the pink bollworm.

Raymondville

Mexican Fruit Fly Control (office).--Rapp Building, Hidalgo and Fifth Streets. P. O. Box 371. Telephone, 168-W. J. K. Smith, in charge. Enforcement of quarantine regulations on the Mexican fruit fly.

Pink Bollworm Control (suboffice of Harlingen, Tex., office).--Room 8, Weeks Building. P. O. Box 706. Telephone, 258. W. E. Gassett, in charge.

Quarantine operations against the pink bollworm.

Robstown

Pink Bollworm Control (suboffice of Corpus Christi, Tex., office).--Room 3. State National Bank Building. P. O. Box 1107. Telephone, 127. D. J. Markwardt, in charge.

Quarantine operations against the pink bollworm.

Roma

Foreign Plant Quarantines (office).--Starr County Bridge Company Building, International Bridge. P. O. Box 126. Telephone, 2. A. A. Stalmach, in charge.

Enforcement of foreign plant quarantines.

San Angelo

Pink Bollworm Control (suboffice of Abilene, Tex., office).--Room 212, Federal Building. Box 659. Telephone, 6338. H. L. Alford, in charge. Quarantine operations against the pink bollworm.

San Antonio

Domestic Plant Quarantines (office).--Room 533, Federal Building. P. O. Box 2300. Telephone, Fannin 7141, extension 284. A. E. Cavanagh, in charge.

Field headquarters for phony peach and peach mosaic activities conducted in various Southern, Southwestern, and Western States.

Foreign Plant Quarantines (office).--Room 533, Federal Building. P. O. Box 2300. Telephone, Fannin 7141, extension 284. W. R. Sudduth, in charge. Enforcement of foreign plant quarantines.

Pink Bollworm Control (divisional headquarters).--Room 571, Federal Building, San Antonio 6. P. O. Box 2749. Telephone, Fannin 7141, extension 275. L. F. Curl, in charge.

General supervision of pink bollworm control activities, including co-operative activities with the Republic of Mexico.

Pink Bollworm Control (office).--Room 571, Federal Building, San Antonio 6,  
P. O. Box 2749. Telephone, Fannin 7141, extension 278. T. R.  
Stephens, in charge.

Headquarters for pink bollworm control activities in Republic of Mexico  
adjacent to the United States.

Pink Bollworm Control (mechanical shop).--Building 30, San Antonio Arsenal,  
219 East Arsenal Street. Telephone, Fannin 5321, extension 110.  
A. A. Klaus, in charge.

Mechanical shop in connection with quarantine operations against the  
pink bollworm.

#### San Benito

Cotton Insect Investigations (sublaboratory of Brownsville, Tex., labora-  
tory).--Post Office Building. P. O. Box 906. Telephone, 434.  
R. L. McGarr, in charge.

Investigations of insects affecting cotton.

Mexican Fruit Fly Control (office).--Federal Building, 238 North Sam  
Houston Street. P. O. Box 7. Telephone, 100. A. Thomae, in charge.  
Enforcement of quarantine regulations on the Mexican fruit fly.

Pink Bollworm Control (suboffice of Harlingen, Tex., office).--345 Aztec  
Building. Telephone, 730. (Temporarily vacant), in charge.  
Quarantine operations against the pink bollworm.

Quarantine operations against the pink bollworm.

#### Stamford

Pink Bollworm Control (suboffice of Abilene, Tex., office).--(Temporarily  
vacant), in charge.  
Quarantine operations against the pink bollworm.

Stephenville

Pink Bollworm Control (suboffice of Abilene, Tex., office).--671 Lillain Street. Box 66. Telephone, 1576. F. D. Bittner, in charge.  
Quarantine operations against the pink bollworm.

Vernon

Pink Bollworm Control (suboffice of Altus, Okla., office).--H. J. Henderson, Seymour, Tex., in charge.  
Quarantine operations against the pink bollworm.

Waco

Cotton Insect Investigations (laboratory).--The South Circle, at Intersection of U. S. Highways 77, 81, and 84 and State Highway 67. P. O. Box 1218. Telephone, 109. K. P. Ewing, in charge.

Investigations on bollworm, cotton fleahopper, boll weevil, cotton aphid, and other insects on cotton. Cotton insect surveys in Texas and Oklahoma.

Basic research on cotton insects relating to fundamental factors affecting control. (R&M project)

Grasshopper Control (suboffice of Denver, Colo., office).--602 Liberty Building. Telephone, 9591. J. M. Landrum, in charge.

Headquarters for grasshopper control activities in Texas, Oklahoma, and New Mexico.

Weslaco

Mexican Fruit Fly Control (office).--441 Texas Avenue. P. O. Box 453. Telephone, 36. E. F. Pepper, in charge.

Enforcement of quarantine regulations on the Mexican fruit fly.

Pink Bollworm Control (suboffice of Harlingen, Tex., office).--Rives Building, 107-1/2 4th Street. P. O. Box 426. Telephone, 377. F. M. Wilson, in charge.

Quarantine operations against the pink bollworm.

Wharton

Pink Bollworm Control (suboffice of Cuero, Tex., office).--Rugeley Building. 114 Milam Street. P. O. Box 430. Telephone, 155. D. H. Alexander, in charge.

Quarantine operations against the pink bollworm.

Ysleta

Cotton Insect Investigations (sublaboratory of Brownsville, Tex., laboratory).--Texas Agricultural Experiment Station. P. O. Box 66. Telephone, 2185. L. W. Noble, in charge.

Pink bollworm investigations; some work with other cotton insects.

UTAH

Logan

Bee Culture (laboratory).--Legume Seed Research Laboratory, Agricultural Experiment Station. Telephone, 100, extension 99. F. E. Todd, in charge.

Pollination studies in connection with legume seed production.

Cereal and Forage Insect Investigations (sublaboratory of Beltsville, Md., laboratory).--Utah State Agricultural College. Telephone, 100, extension 99, Ring 2. F. V. Lieberman, in charge.

Investigations of insects affecting alfalfa seed production.

Fruit Insect Investigations (sublaboratory of Riverside, Calif., laboratory).--Department of Botany and Plant Pathology, Utah State Agricultural College. P. O. Box 146. G. H. Kaloostian, in charge.

Cooperative investigations dealing with the relation of insects to the dissemination of little cherry, Western X, and other viruses that affect stone fruits. (R&M project)

Grasshopper Control (suboffice of Denver, Colo., office).--Room 231, Main Building, Utah State Agricultural College Campus. Telephone, College 100, extension 49. H. F. Thornley, in charge.

State headquarters for grasshopper and Mormon cricket control activities.

Truck Crop and Garden Insect Investigations (laboratory).--Room 224, Administration Building, Utah State Agricultural College. P. O. Box 109. Telephone, 100, extension 73. H. E. Dorst, in charge.

Investigations on the beet leafhopper and the tomato fruitworm.

VERMONT

Barre

Japanese Beetle Control (district office of Plymouth, N. H., office).--188 Washington Street. P. O. Box 207. Telephone, 902. R. L. Emrick, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

Bellows Falls

Japanese Beetle Control (district office of Bennington, Vt., office).--36 Atkinson Street. P. O. Box 453. Telephone, 225. V. R. Call, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

Plant Disease Control (district office of Montpelier, Vt., suboffice).--Room 253, Post Office Building, Bridge Street. Telephone, 268-W. F. H. Rose, in charge.

White pine blister rust control activities.

Bennington

Japanese Beetle Control (regional office).--Approximately 1 mile east of Bennington R. R. Station on Vermont Route 67. P. O. Box 191, South Shaftsbury, Vt. Telephone, Bennington 191-M-5. J. S. Stockbridge, in charge.

Enforcement of quarantines on Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification, western region.

Clarendon

Japanese Beetle Control (district office of Bennington, Vt., office).--Junction of U. S. Highway 7 and Vermont 107. P. O. Box 708, Rutland, Vt. Telephone, Rutland 2272-W-1. J. L. Daley, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.

Montpelier

Gypsy Moth Control (office).--Office of Director, Division of Plant Pest Control, State House. Telephone, 1500. H. L. Bailey (Deputy Commissioner of Agriculture), in charge.

State leadership in cooperative control of the gypsy moth and the brown-tail moth.

Plant Disease Control (suboffice of Cambridge, Mass., office).--State Forestry Department, Cody Block, Main Street. Telephone, 1500, extension 32. S. D. Conner, in charge.

State leadership in white pine blister rust control activities.

Norwich

Japanese Beetle Control (district office of Plymouth, N. H., office).--P. O. Box 163. Telephone, Norwich 1060. W. E. Stevens, in charge.

Enforcement of quarantines on the Japanese beetle and on gypsy moth and brown-tail moth, including inspection and certification service.
